

# TEMCO ALLOY C21000

## TECHNICAL DATA SHEET

*UNCONTROLLED COPY*

**COMMON USES:** TEMCO Alloy C21000 has been specifically developed for rotor bar applications. Close control of the chemistry, including trace elements, at our in-house casting facility allows us to control the electrical properties within a very narrow range. This insures our customers the same electrical properties each time they order. Consult our Sales Department to discuss your specific application.
